

## Press Release

### The Oceanwings has been awarded the Solar Impulse Efficient Solution Label !

Paris, November 25th, 2021 - 09:00 am CET

AYRO, a French industrial company that designs and delivers Oceanwings®, a patented automated and lowerable wingsail for the wind assisted propulsion of commercial vessels, has successfully obtained the Solar Impulse Efficient Solution Label for its technology.

This label recognizes the Oceanwings system as a green and profitable solution to address the sustainability challenges of the maritime transport industry.

The Solar Impulse Efficient Solution Label is designed by the Solar Impulse Foundation to shed light on existing Solutions that are both clean and profitable. The Label is awarded to products, services, and processes that combine credible environmental and economic performance, while outperforming the mainstream options in its market.<sup>[1]</sup>

“This recognition provides additional motivation to the AYRO team in its endeavor to design the most performant wind propulsion system for commercial vessels, and to continuously support our clients in addressing their environmental and economic challenges.” says Marc Van Peteghem, co-founder and Chairman of AYRO.

#### About AYRO

AYRO is a French industrial company that designs, manufactures and sells the Oceanwings® system to be installed on cargo vessels and yachts, contributing to the reduction of CO2 emissions by reducing fossil energy consumption.

#### About the Solar Impulse Foundation

The Solar Impulse Foundation is an environmental non-profit founded in 2003 by Bertrand Piccard and André Borschberg in collaboration with the Swiss Federal Institute of Technology in Lausanne. The foundation is known for its round-the-world flight in an entirely solar powered plane completed in 2016, as well as the Solar Impulse Efficient Solution label awarded to 1000 solutions that are both profitable and good for the planet.
